FYI - thought you should know I received this email. I have been in communication with Heather on BB related work and so I will need to respond. Haven't heard back from Michael, Dianne, or Rick yet. Hope your briefing on Chuitna went well last week, I was out sick and so haven't heard how it went.

Thanks! Tami

FYI - I propose that I respond to Heather with the following:

Hi Heather,

(b) (5)

Thanks! Tami

Hi Tammy,

I understand from our partners that there is discussion within EPA regarding a potential visit by the Administrator the week of August 25th. If she does elect to come to Alaska, can your team make the pitch that she visit Tyonek as well as the Bristol Bay area if at all possible?

Tyonek has been working against the Ch'uitna coal mine development and has also requested that EPA use its 404(c) authority after the NEPA process has been concluded.

Best, Heather
